# Editor Note

Hello Readers,

I hope you all are safe at home.

“You must never doubt your ability to achieve anything, become anything, overcome anything and inspire everything.”

This time, I want to talk about anxiety and stress in children. There is a lot of pressure on children nowadays, and they don't know how to deal with daily struggles and challenges. I think parents need to understand that all children are different, have different personalities, and possess different strengths, so stop comparing them with others and start supporting them to fulfill their dream. We hope you will like it, and please do not forget to share your feedback. We are looking for writers and artists like you, so please send us your stories and drawings at [kidliophile@gmail.com](mailto:kidliophile@gmail.com).

Happy Reading!

## Be Patient:

What happens when the bully becomes the victim? Toby the elephant is bullied on the way to the fair by a classmate. His glasses are taken from him and shortly afterward, the bully is now a victim himself.

Will Bentley help him, or walk away and continue looking for Toby's glasses?

## Be Kind:

Finally the day has come to go to the moon, but Bentley's friends are not allowed on the ramp because they are all different. Bentley must decide between his friends and his dream. A lesson about diversity and inclusion

## Accept Each Other:

3

A wrong turn takes Bentley and his friends to a hospital where they meet children with special needs including a little girl Julia who wants to give up. Bentley comes up with a plan to lift her spirits and encourage her to never give up.

## Never Give Up:

When asked what her plans are for Bentley, Argyro replied "I don't have plans for him, he has plans for me." She has launched four 30-day kindness projects (Kind to Each Other, Animals, Our Environment and Each Other) Her newest Happy Hippo Collection promotes multiculturalism and multilingualism; One book - 5 languages. A collection of 10 titles/themes in 20+ languages.

Canadian multi-award-winning author and mastermind behind the Bentley Hippo Inspiring Children's Series.

Argyro is now a role model for kids. Despite an overnight trauma that robbed her of complete vision in one eye, she never gave up. She created Bentley and together they are on a mission to empower, motivate and inspire children to be kinder, to embrace their differences, celebrate their abilities, and not focus on disabilities. Her diverse characters have their own struggles and special needs. Her hope is to normalize the characters in the eyes of children so that they can grow up to be more accepting towards people who face these difficulties every day. With 23 published titles, 15 awards, and over 1000 books donated, she claims her journey has just begun.

# I'M SORRY

## The Right Time to Apologize

I'm Sorry: The Right Time to Apologize is a unique book created and developed by the young author, Kiara (Kiwi) Smith who is 8 years old through Kiwi Cares Collections where profits are donated to nonprofits working with children in need.

The perspective of this book is from a young school-aged reader offering lessons she's learned for other young-school aged children.

Fun Lesson-Filled story about apologizing and when is the right time to say "I'm Sorry". In this story, Kiara wants to teach her peers that saying "I'm Sorry" or apologizing isn't always the right thing to say, especially after accidents. It is important that young readers learn other phrases they can say when accidents happen that aren't their fault other than apologizing. Over-apologizing can lead to the apologies becoming insincere so Kiara wants to equip her readers with the knowledge of when to apologize and other alternatives to "I'm Sorry".

## KIARA SMITH

Kiara Smith, nicknamed Kiwi, is an 8 year old kidpreneur who owns Kiwi Cares Collections. Kiara launched her business on her 8th birthday in April 2021. Kiwi is a published author of 5 children's books that are available for sale on Amazon. Kiwi writes children's books that are full lesson-filled stories that are interactive and engaging. Kiwi identifies lessons that are age appropriate for children and writes stories that are filled with fun adorable furry creature friends. Each book includes engaging questions that are around the lessons discussed in the book that help the entire family talk about the important life lessons. The books also have fun coloring pages and a word search based on key terms discussed in the book. The best part about Kiwi Cares Collections is that all of the profits are donated to organizations supporting children in need.

Kiwi was diagnosed with dyslexia in Fall 2020. This learning disability makes it very tough for Kiwi to read; however, she is extremely creative and thoughtful. In finding immense joy and love in books, she now writes children's books and gives back to others in need.

# CLAUDIA GOUVEIA

**Q: First tell us something about yourself?**

I love books. Especially children's books. Over the years I've collected kids books of all genres. For the past ten years I would read these stories to my cat, Robbie. It was our daily cuddle time ritual, and it's where I began to play with the idea of writing and publishing my own stories and books.

**Q: How and when did your journey start as a writer?**

When I was seven years old my parents decided to move from Portugal to the US. When I arrived, I didn't have any friends or siblings to spend time with. So, I took solace in writing stories about friendships. This lasted until the age of eleven, when my sister was born. After that I always thought of stories and would jot them down into journals as ideas but never took it further, until the character Ellie Fairy came to mind a few years ago.

**Q: When did you write your first story? Is it published or not?**

My first fully completed story is Ellie Fairy Meets Cordelia Bee and it is my first published book from the Ellie Fairy Book Series. I wrote this story in one Saturday afternoon in my office and have never looked back since. So far, there are seventeen stories in the series, with the second book Ellie Fairy and The Seed Within coming out soon.

**Q: Tell us something more about your books?**

The Ellie Fairy Book Series are a collection of stories that find a connection between friends of all backgrounds. Each adventure brings about conversations of bravery, truthfulness, kindness, and building friendships. Some stories are more comedic, others more momentous; however, every single story envelops the reader with a message.

**Q: Why do you choose kids as your reader ? is there any specific reason?**

My earliest memories as a child in Portugal, revolve around me carrying children's story books, even when I couldn't yet read them myself. My favorite books were Heidi by Johanna Spyri. Heidi always had amazing adventures and I wanted to have them too. If no one was able to read the story to me, I could just look at the pictures and know what the story was about. I could then daydream and envision myself in these same adventures. This is the power a children's book carries, and I can only hope my books will have the same impact on its readers.

**Q: How did these stories and characters come to your mind?**

When I thought of the fundamentals of Ellie's character, I knew she would have the most unusual adventures, all while being a true friend, kind, brave, courageous and a little clumsy at times. This particular story, Ellie Fairy Meets Cordelia Bee, is based on true events that happened to me as a child. It was quite funny and over the years it has become kind of a family legacy story. With each new story in the Ellie Fairy Book Series the reader will uncover who Ellie is and why she is 'the one with strong belief'.

**Q: Do you want to leave any message for your readers?**

For the young readers and parents alike, my wish is simple: All who read any of the Ellie Fairy books should finish the story and have a feeling of joy. Cherish the parent and child moment of reading together. It will be remembered for years to come.

## ELLIE FAIRY MEETS CORDELIA BEE

Ellie Fairy is a fun, exciting, and friendly little girl who loves to spend time in her tree house or outside in her yard. Playing with her friend, Sandy Skunk, Ellie Fairy sees an elegant, sweet...bee? After introducing themselves, the three form a fast friendship learning about Ellie Fairy's favorite things.

# THE CASE OF THE GREEN REFLECTION

It was a really **SCARY** night when I was driving on the **br i d g e** that leads to my home in a forest. I liked to live in a forest as it gave me

privacy and peace. As soon as I entered the bridge, my **CAR** tires started skidding. I thought it would be cause it was wet and I continued driving and made the biggest mistake ever. My car skidded off the bridge and it fell into the water with a loud splash. The car started filling up with water and I was going to drown inside it if my luck

was bad. A strange group of tiny **GREEN CREATURES** swam into my open area window and broke the rest of the windows. They later tore my seatbelt and broke open the doors. They dragged my unconscious body out of the car and took me to a weird cave, I lay down for a while and then I looked around to notice that there were now a lot of people around me who were taking me to the hospital, I coughed and spat out water, and thanks to the creatures I was saved so after I recovered I went back to the bridge and dived in with a scuba suit and scuba gear. I looked around for anything strange and soon enough I found a huge cave, I entered it and spotted a few large green creatures, I was then confused because of this as the ones that rescued me were small, I wrote on a waterproof notepad asking who they were. They replied by taking of my mask and at first I thought that I would die cause of shortage of oxygen but was surprised to find out I could breathe there, they spoke fluent

English and told me that they were **ALIENS** on this planet and could morph into any size or shape. So when they saved me they had to morph into a tiny animals shape . I thanked them and left and then I wrote this in my diary as it was a strange and unforgettable memory to remember for lifetime and for other generations.
